Advanced Studies Programs Overview

- **Brennan Integration Work**
- **BHS Teacher Training Internship**

The Advanced Studies (AS) program offers professional courses of study in both **Brennan Integration Work** (Years One and Two) and **Brennan Healing Science Teacher Training Internship** (Year Three). These courses provide a powerful journey of transformation—expanding and deepening your facilitation skills as a healer and further opening the way for the full expression of your life’s work.

Both of these courses of study are built upon the practice of Brennan Healing Science with all principles and skills being taught from the perspective of the Human Energy-Consciousness System. Students will learn how to apply these principles to create and support effective group dynamics, individual and group learning, and team building.

Specific courses within these programs are delivered by some combination of Resident Training, Internship, Distance Learning Modules, and private supervision sessions. Throughout the programs students are supported by experienced faculty who serve as mentors, teachers, and supervisors.

Upon successful completion of Years One and Two in Brennan Integration Work, students will receive certification as a Brennan Integration Practitioner (BIP), qualified to provide BBSHE/BBSHJ students with their required personal process sessions. Successful completion of Year Two is required to be eligible for Year Three, the Brennan Healing Science Teacher Training Internship. Entry into Year Three is on an invitation-only basis.

Training in Brennan Integration Work

This training is a dynamic, exciting, multi-disciplinary approach to the art and science of facilitating personal process work. Students who commit to this level of training can expect to deepen their own personal growth and to develop a clear understanding of how to sustain and deepen a client’s personal process as a part of their healing work.

This work is rigorous, fun, enriching, and alive. It is uniquely balanced between various theories and their practical applications, between predesigned lectures and experiential exercises and spontaneous group-supported demonstrations of “live” individual and group sessions. Students will receive ample opportunities for supervised practice sessions during their training.

Advanced Studies Year 1—Brennan Integration Work

Year One of the Advanced Studies program focuses exclusively on a practitioner’s capacity to attend to a client’s ongoing personal process. It emphasizes body and energy awareness in a person’s emotional and psychological experience. Students are taught how to track and understand individual and group dynamics and to experiment with making process observations and reflections versus giving guidance and advice to their clients.

Year One students are required to make a written and oral presentation on a chosen psychological disorder, as well as take a final exam. Students are required to complete Distance Learning Modules that will be reviewed and discussed during in-class supervision groups.

Application to Year One is open only to graduates of the four-year Brennan Healing Science Professional Studies Diploma Program. Acceptance is based on a review process and the number of available enrollment positions.

Advanced Studies Year 2—Brennan Integration Work

Year Two of the Advanced Studies program is a continuation and deepening of what students learn in Year One. In Year Two, students are expected to demonstrate a clear understanding of individual process dynamics, and an ability to deepen a client's work, both within a session and over the course of successive sessions.

Students participate in group presentations, and specialized segments are presented to incorporate techniques to help clients manage emotional intensity. Students are required to complete Distance Learning Modules, and demonstrate their proficiency with process work, both in person and through long distance phone sessions.

Year Two is open only to those students who have successfully completed Advanced Studies Year One—Brennan Integration Work. Students who successfully complete Advanced Studies Year Two receive a Diploma (Advanced Studies Year Two—Brennan Integration Work), and are certified as Brennan Integration Practitioners (BIPs). Please note that Year Two courses begin only in the 2009–10 school year.

Advanced Studies Year 3—BHS Teacher Training Internship

Year Three of the Advanced Studies program is a select course of study for those students interested in becoming teachers at BBSHE/BBSHJ. Entry into Year Three, the Brennan Healing Science Teacher Training Internship, is open only to students who have successfully completed Year Two of the Advanced Studies Program in Brennan Integration Work and have become qualified as Brennan Integration Practitioners.

Also, entry into Year Three is on an invitation-only basis. Interested Year Two graduates may apply for consideration. Each application is reviewed by an advisory committee.

Applicants who are accepted into Year Three are required to complete a two-day Intern Intensive before the start of Class One. During the school year, students will intern on small class teaching teams at all five Resident Training weeks, participating in all aspects of teaching work, and receiving support and evaluations from the Dean of the year to which they are assigned.

Upon successful completion of Year Three, students are eligible to apply for consideration for hire at faculty status. Please note that Year Three courses begin only in the 2010–11 school year.

Advanced Studies

Year 1 Courses

Advanced Brennan Healing Science I:
Process Work with Healing Science Skills

Advanced Psych-Spiritual Development I:
Individual and Group Process Work

Advanced Professional Practice I:
Individual and Group Practicum Sessions

Advanced Creative Arts I:
Movement and Embodiment

Advanced Integrative Care I

Integrative DLMs I

Year 2 Courses

*Year 2 courses will begin in the
2009–10 school year.*

Advanced Brennan Healing Science II:
Process Work with Healing Science Skills

Advanced Psych-Spiritual Development II:
Individual and Group Process Work

Advanced Professional Practice II:
Individual and Group Practicum Sessions

Advanced Creative Arts II:
Movement and Embodiment

Advanced Integrative Care II

Integrative DLMs II

Year 3 Courses

*Year 3 courses will begin in the
2010–11 school year.*

**Brennan Healing Science
Teacher Training Seminar**

**Brennan Healing Science
Teacher Training Internship**

All BBSHJ courses will have simultaneous translation into Japanese.
